

FAYE FOR ALUMNAE RELATIONS REP

ABOUT ME:

I'm a first year law student living in Bev 1/2 and I'm running for the new alumnae rep position.

As a law student I've already signed myself up for a future of networking so I might as well start now with the Anne's alumnae.

I love St Anne's and I know we're the college with the best people so I know that anyone who has been to college in the past will be lovely and I hope to be able to bring the current student body closer to them!

WHY CHOOSE ME?

I am very organised and manage to fit weekly essays, insane amounts of reading and going out most nights into my schedule, so I'm prepared to take on the challenge of organising amazing events that give our student body the chance to get to know St Anne's alumnae.

I hope that when I leave Anne's I will still feel connected to the college and be able to get involved with the student body and help them out, so I am keen to establish a close relationship between students and alumnae that will last. To achieve this goal I will make it my mission to begin traditions with alumnae that carry on for years to come.

MY PLANS:

REGIONAL AND OXFORD BASED EVENTS:

I plan to take advantage of the amazing alumnae network that Anne's has by hosting general events to allow alumnae and students to form a better relationship, and these may take the form of formal dinners/a yearly ball?

TALKS GIVEN BY ALUMNAE:

As we have some very successful alumnae out there, I will organise for individuals to come and give talks and will use a "St Anne's Alum Events" Instagram page to put up polls and see what events students are interested in.

ALUMNAE MENTORING PROGRAMME:

I will contact alumnae who have enough free time to offer mentoring to St Anne's students for things such as job interview prep/general discussions on how to access fields of business that can seem inaccessible etc.

SUBJECT BASED DINNERS:

I will organise subject based dinners to allow for current students to see what possible careers they can go on to do/different paths they can take following on from their degree.
