

KAT FOR BAME REP

Hi! I'm Katherine, but I go by **Kat** (she/her) and I'm a first year History and Politics student. You probably don't know me because I live in Wolfson this year (yes, which I know has a reputation).

I'm British-born Chinese and from Portsmouth. As someone who has grown up as a minority in majority white schools, I feel like I am able to relate to a lot of you who may have had similar experiences.

My policies <3

- Work with the **LGBTQ+, Women's, Equalities and Access reps** to ensure an intersectional approach is taken to student issues, life and outreach
- Host an **open forum** to discuss changing the term 'BAME' to better describe the community and align ourselves with the wider societal changes
- Creation and promotion of **educational events** including reading groups (about racial issues or books written by ethnic minorities)
- Make the anti-racist workshop **compulsory** and **in-person** (COVID-pending) in Freshers' Week
- More **college and inter-collegiate** events to allow people of colour to have more opportunities to interact with each other
- **And above all, I will be someone to talk to (always!)**

vote me!

Oxford and St Anne's is part of a wider global community and we must recognise this. With recent issues including Black Lives Matter, the xenophobia faced by Asian communities in the wake of COVID-19, the struggles of Palestinians for self-determination, and many others, it is now more important than ever to build solidarity.

I hope as your **BAME rep** that I can help contribute even a little to creating an inclusive, accepting and open environment.
