Motion: Proposal for JCR International Access Initiative Levies

Proposed by: Danyaal Abdul

Seconded by: Fabian Bordeaux

This JCR notes that:

In 2018/19 the JCR passed a motion to split the funds from the Oxford Reach levies. The split was 50% going to the college International student hardship to be used by college for cases of hardship regarding international students.

The other half was proposed to go towards an International Access initiative, with the international rep and access rep creating a plan, which the JCR could agree to. This has not been done, meaning there is currently £8129.25 in the fund.

This JCR believes that:

This money should be spent in a way that is helpful to the most amount of people. Covid has highlighted the precarious situation many international students may be in if they are unable to return to their homes and forced to stay in college.

This JCR therefore resolves to:

Spend the money by donating the remaining amount to the same international student hardship fund as before.
