

# Isabella Hickman: Access Rep

Hello!

I'm Isabella - a first year ancient and modern history student (yes that degree actually exists!) I'm from Birmingham and love reading, theatre and wandering around Oxford! I also spend way too much of my time in cute cafes...

Why I would like to be access rep:

I would love to be access rep for Anne's because I really believe in the importance of opening up Oxford to anybody, regardless of their background. I am genuinely enthusiastic about spreading information about the Oxbridge application process and what life is like at Oxford to as wide a variety of potential students as possible.

Experience:

I volunteer as an ambassador for St Anne's, giving college tours and answering questions from students and teachers about the college and university. This has been such a valuable experience in speaking to students and addressing concerns that they have, and really inspired me to be part of the ongoing aim for outreach and access at Oxford. Having volunteered at a local drama school, I am able to work with others effectively, as well as take initiative to come up with ideas for increasing outreach and access.
