

Vote Benaiah for Sports Rep

Why am I running for sports rep?

Hi, I'm Benaiah, a first year Biologist. I want to become your sports rep because I love sports and fitness, and I want to contribute to Anne's by promoting an enthusiasm for sports as well as supporting our college athletes.

My sports-related involvements, past and present

In high school, I was the sports rep of my student faculty, where I organised freshers orientation sports games and inter-faculty sports competitions. I was also the captain of the jumps division of the athletics team.

Currently, I am involved in touch rugby and badminton at the college level, and athletics at uni level. I am also a frequent user of our college gym, and am aware of the faulty equipment that require fixing.

What I want to achieve as your sports rep?

College gym

The college gym has numerous faulty equipment, and this has led to many gym users not being able to get maximum gains. I aim to follow-up with the matter and not only try my best to get the equipment fixed, but also establish a long-term plan to ensure that the gym equipment remains well-maintained for the coming years.

College sports

I believe more can be done to recruit new members for our college sports teams by consolidating term cards of all the sports and making them accessible to all students. I will also work with captains to secure a good budget for both kit and socials/crew dates. This can also serve to attract new members to join college sports.

Uni athletes

I aim to provide support for our uni athletes, so no one has to let the price of subs and kit deter them from pursuing a sport they love. I will work hard to ensure that our athletes are supported by the Blues Reimbursement Scheme. I also wish to celebrate the achievements of our uni athletes by featuring them on our college instagram account.
