

VOTE KRISHH FOR VICE PRESIDENT!

KRISHH WHO?

Hello again! I'm a first year Chemistry student running to be your Vice President! A quick rundown of who I am-

- I'm an international student from India, who is now in love with Oxford.
- Procrastination of my tute sheets, sleeping, reading and debating are some of my hobbies.
- I love to eat good food from most cuisines (pizza supremacy, though) and I enjoy learning languages in my free time!
- I have a dog named Simba and really want to get a cat too (I've been told I'm more of a cat person).

MY GOALS

- Making the JCR an open and safe space by communicating ideas and opinions seamlessly between the students, the committee and the college.
- Working with the incoming President to ensure key issues regarding the welfare of students (such as the ongoing vacation residence problems) are properly communicated to the college.
- Ensure that the Danson room is maintained properly (and upgraded where possible) such that it can become the hub of activity that it should be.
- Work with other committee members to ensure a plethora of events (drinking and non-drinking) are organized throughout the year, including more events in college to make them more accessible to everyone.
- Put together a Fresher's week to be remembered, welcoming everyone, regardless of their background and interests, into our wonderful college community.

WHY ME?

- Coming from a foreign country helps me understand how it feels to not be included, so I feel very strongly about making sure that everyone feels like a part of the college community.
- I have held leadership roles all my life, as prefect on the student council for 2 years and class representative for 5 years in school.
- I have also organized many inter-school events, communicating with over 70 sponsors and venues for hosting more than 500 students from across the world for debates and conferences.
- My previous role as Freshers' Rep has allowed me to liaise between my year group and the JCR committee, and given me valuable insights into how college democracy functions and decisions are taken. (Seeing the AMAZING work that the current VP has done has motivated me to apply for this position.)
