

# Product Management Internship

Salary: £35,000 (pro rata)

Location: London, UK

Duration: Up to 10 weeks between July and September 2026

Closing Date: 31<sup>st</sup> December 2025

## Role summary

FINBOURNE is offering an exciting Product Management Internship for Summer 2026. This is an exciting opportunity for undergraduates or graduates to see first-hand how we design and build capability in our LUSID platform. Our internship is aimed at giving you exposure across our entire business. Although the role is constantly evolving, the typical product-related tasks you will be involved in will range from designing our APIs, creating a UI-based user journey, to evaluating commercial opportunities.

We will also provide training sessions to give you an overview of the Financial Services industry, Asset Management, Investments and further insight into our business and product.

## How we will support you

- You will be working with highly experienced Product Managers, UI and UX designers and engineers who will provide training and mentoring for you. These individuals have spent their careers at some of the most prestigious financial technology institutions and are eager to share their experience.
- In addition to your Line Manager, you will be assigned a Buddy within your team to provide you with support and guidance throughout your internship.
- You will be invited to regular knowledge sharing sessions building your understanding of both the company and the broader financial technology industry.
- Access to a network of colleagues who are happy to answer your questions and explain answers in detail.

## What we are looking for

- Candidates in their penultimate or final year of study, studying a **STEM subject**.
- **Strong communicator** - comfortable speaking, writing and listening effectively with colleagues across different departments.
- **Technically capable** - proficient in Microsoft Office with aptitude for learning product management tools.
- **Analytical thinker** - can research problems, evaluate data, and present findings clearly
- **Collaborative** - builds positive relationships and collaborates effectively across different departments

- **Adaptable** - adapts easily to new tools, systems, and fast-paced environments
- **Proactive and self-motivated** - takes initiative and ownership of tasks
- Ideally, you will have some **financial industry knowledge** or a strong willingness to learn.
- Ideally, you will have some **experience with technology**, either coding or design.

Permanent employment opportunities may be discussed based on performance and available positions within the team.

## Applications

- To apply, please send a copy of your CV and your answer to the following application questions to [hr@finbourne.com](mailto:hr@finbourne.com). Additionally, please confirm your right to work in the UK.
  - What are your motivations for applying for this role? (250 words)
  - What attracts you to FINBOURNE as an organisation? (250 words)
  - Please can you tell us about a time where you demonstrated teamwork and how this helped to achieve a successful outcome. (250 words)
  - Please can you tell us about a time where you have demonstrated your initiative and how this helped to achieve a successful outcome. (250 words)
  - What is your proudest achievement? (250 words)
- Shortlisted applicants will be invited to interview with the Product team at FINBOURNE.

*Whilst FINBOURNE will not be offering accommodation as part of this internship, we are very happy to provide advice on where to find temporary accommodation in London.*

## Hear from our previous summer interns

Visit our '[Life as a summer intern at FINBOURNE](#)' series to get a taste of how working in a dynamic, fast-paced scale-up looks like by hearing from three of our 2025 summer interns about their time with us and the value and learning they took away from their roles.

## About FINBOURNE

We are a young, dynamic financial technology company aiming to re-engineer the world of investing to make it clearer, faster and more cost effective for everyone.

At FINBOURNE, we offer a hugely supportive environment to build a career, with continuous learning and development opportunities. We have a collaborative culture of testing and exploring problems together to find the best evidence-based solutions. We respect your independent thought, your intellectual curiosity and your opinion.

Our solution is open, API first and developer friendly – a true first for the asset management industry. You can see what our team is busy building on Github.
