Tully

- We had a long discussion about this in the committee meeting
- So far we have a lot of Instagram accounts
- For the TikTok account, we have all the logins, but in terms of adding an extra rep - this is very unlikely to be accepted by college
- So, we propose that the Instagram can be better entrenched into preexisting roles - but we do struggle to find time to make content, so if you were to create content, we can post it for you

Neve

- I think we should open a form for people to submit a "day in the life"
